

healthbank empowers people across the globe to exchange their health data on a uniquely neutral and independent platform. healthbank drives innovation in health sciences, from prevention to cure, at a better price with better quality for the benefit of both the individual and society.

healthbank develops a global, people-owned health data exchange platform and is proud to be honored as one of the top 100 digital healthcare companies in the first Global Digital Health 100 Awards by The Journal of mHealth.

Picture yourself in a start-up company bringing this product to market! When you would like to associate yourself with healthbank and play a major role creating the future in e-health? healthbank is looking for a:

Full Stack Dev-Ops person (80-100%)

WHAT HEALTHBANK CAN OFFER YOU

- An attractive work place in the buzzing atmosphere of our start-up company in Baar (Switzerland).
- An opportunity to build an e-health platform for people-controlled healthcare data storage and user interaction.
- To take ownership of the full development and operational process of a global cloud deployed web and mobile platform.
- In this position you will report directly to the Head of Software Development.
- As a full stack dev-ops you could be responsible for the following:
 - All mobile and web development and deployment
 - All API development and deployment
 - Full operational deployment and feedback
 - Full continuous Integration and continuous deployment
 - Create and update best practices for healthbank
 - Work with third parties delivering components and integrating with the platform

WHAT DO WE EXPECT FROM YOU?

- Degree in computer science or equivalent qualification
- 3+ years of hands-on work experience in web development, e-health knowledge is a benefit
- Thorough understanding of AGILE, Cloud and REST
- Capability to take on a multitude of software development and cloud operation challenges
- Ability to work within a start-up company, meaning tackling not delegating, and being utterly flexible
- Personal drive, goal-oriented, ability to work under pressure, learn as you go, and meet deadlines
- Fluent in English both verbal and writing, fluent in verbal German

WHAT CAN YOU EXPECT FROM HEALTHBANK?

- A small team of highly motivated people that want to get things done
- Flexibility and pragmatic in solutions to get to the result

- Open ears to hear your input for moving forward on technology, methodology and tools
- Currently working on an existing stack with JAVA, MariaDB, AngularJS 1.4 and Ionic with Cloud hosted Ubuntu VM
- Active lean Kanban development in Azure functions (API), Angular (latest) and Ionic

Would you like to associate yourself and support the idea of making healthbank the best and most secure e-health platform on planet? Send us your application with cover letter, CV and relevant references.
